CAREER OBJECTIVE

I'm a Computer Science student with hands-on experience in full-stack web development and a solid grasp of programming and data structures. I'm always eager to learn and love working on real-world projects—especially in web development, AI, and cybersecurity.

EDUCATION

- **Bachelor of Technology in Computer Science**
  Lakkireddy Balireddy College of Engineering, Mylavaram, India
  September 2022 – June 2026
  Current CGPA: 7.53 / 10 (as of 3rd year, 2nd semester)

SKILLS

- **Programming Languages:** Python, Java, C
- **Web Development:** HTML, CSS, JavaScript, MERN Stack (MongoDB, Express.js, React.js, Node.js), Java full stack, PHP
- **Frameworks & Libraries:** NumPy, Pandas, Matplotlib
- **Databases:** MySQL, MongoDB, firebase
- **Tools & Platforms:** Git, Power BI, Excel, Tableau, PowerPoint, GitHub
- **Data Structures & Algorithms:** Arrays, Linked Lists, Trees, Graphs, Sorting & Searching Techniques
- **Soft Skills:** Problem Solving, Team Collaboration, Communication Skills, Time Management

WORK EXPERIENCE

MERN Stack Developer Intern
Bitzron Softech – Summer Training
- Built secure user authentication and role-based authorization systems.
- Developed and tested RESTful APIs for core features like posting, liking, commenting, and following.
- Integrated MongoDB for structured storage of user data and content.
- Collaborated with a team using Git and followed agile development practices.

PROJECTS

SOCIALITY(Social media website) | https://tinyurl.com/uday469
- A vibrant social network combining traditional features with innovative gaming entertainment Core Features: Post Sharing
- - Create and engage with text, photo, and video posts
- Ephemeral Stories - 24-hour disappearing content with creative tools .
- Real-Time Messaging - Private and group chats with friends
- Bingo Game Hub - Unique multiplayer gaming experience within the social platform

Hand Sign Emotion Detection & Alert System | https://github.com/DussaUday/Hand-Sign
- Built a real-time emotion detection system using hand gestures, Python, Flask and facial cues.
- Triggered alerts when sad or fear emotions were detected.
- Used OpenCV for image processing and Flask for the web interface.

DevCraftz | https://tinyurl.com/DevCraftwebsite
- Key Features: Eye-catching color combinations for modern UI
- Professionally designed portfolio templates
- Real-time auto-deployment – portfolios go live instantly!
- Build dynamic portfolios with your data + chosen styles
- OTP-based signup & authentication for added security
- Perfect for students who want a sleek, personalized, and live portfolio in just minutes.

CERTIFICATIONS

- Data Science Certification - Cisco (2023)
- IoT, C, English - NPTEL (2023,2024)
- Data analysis with Python - Edx (2024)
- SalesForce AI Associate - (2024)
- Generative AI - Edx (2024)
- Tableau Certification - Cisco (2024)
- C programming Certification- EBOX (2024)
- Biztron softtech intern Certification - (2023)
- Cybersecurity Essentials - Cisco (2024)
- Cloud Computing - Edx (2024)
